1. Assume that this code is linked together correctly.

```
p{
  color: red;
  padding:10px 5px;
  background: black;
}
.fancy{
  font-family: cursive;
  background: red;
  color: green;
}
.plain{
  font-family: Times, serif;
  color: black;
}
<p>Hi</p>
```

Question 1

What color font is used to display "Hi"? red

2. `<p class = "plain fancy">Hi</p>`
   What color font is used to display "Hi"? Black
3. `<p class = "fancy plain">Hi</p>`
   What color is used to display "Hi"? black
4. What is the correct HTML for referring to external style sheet?
   `<link rel="stylesheet" href="mystyle.css">`
5. What is the correct HTML for referring to an external style sheet stored in a subfolder called css?
   `<link rel="stylesheet" href="css/mystyle.css">`
6. The style tag and the style attribute are not interchangeable -- this means that you can't accomplish the same effect with both.
7. Css property font-size controls the text size.
8. A{text-decoration:none;} displays hyperlinks without an underline.
9. In the following code snippet, what value is given for the right margin?
   margin: 5px 10px 3px 8px;
   10px
10. The # symbol specifies that the selector is an id.
11. Which of the following would be used to create class called button which has a width of 750px, a height of 30px and the color of the text is black?

```
.button {
    Width:750px;
    Height:30px;
    Color:black;
}
```

12. Which snippet of CSS is commonly used to center an element horizontally?margin:0 auto;
13. A default style sheet is used to eliminate differences in browser default styling.
14. Browser prefixes are moz, o, webkit.
15. Child selectors are not more general than Descendant selectors.
16. How much width will this div occupy?

    div{
      width:100px;
      padding: 10px;
      margin: 5px;
      border: 2px;
    }

    Width = 100px + 2 * 10px + 2 * 5px + 2 * 2px = 100 + 20 + 10 + 4= 134px
17. Using only a default style sheet will typically make your page look worse.
